Client information

The following client information provides a clear and concise overview of the identity of the insurer and the main content of the insurance contract. The content and scope of the rights and obligations arising from the insurance contract are governed exclusively by the General Conditions of Insurance. The use of the masculine form, which may be chosen for reasons of improved readability, also applies to female persons.

Who is the insurer?

The insurer is HanseMerkur International AG, Drescheweg 1, 9490 Vaduz, Liechtenstein (hereinafter "HanseMerkur International"). For more information visit HanseMerkur International at www.hansemerkur.ch.

Applicable General Conditions of Insurance

The General Conditions of Insurance for the travel insurance VB-RKS 2025 (STP-PKVE-CH) City Rail Tour are applicable.

Who is the policyholder?

The policyholder is the natural person or legal entity with residence or registered office in Switzerland or Liechtenstein that took out the insurance contract with HanseMerkur International and is specified by name in the insurance policy.

What persons are insured?

The insured person(s) is/are the person(s) listed in the insurance policy.

What risks are insured and what is the scope of the insurance cover?

This insurance is a non-life insurance policy.

The risks insured within the scope of the respective insurance contract as well as the scope and limitations of the insurance cover are defined in the insurance policy and the General Conditions of Insurance. The following is a summary description of the insurance components available for easy reference:

- Cancellation insurance

Compensation is paid in the event of cancellation, rebooking, failure to commence the trip or late departure, late flight departure or delays during the outward flight of the booked and insured trip.

- Trip interruption insurance

Compensation is paid in the event of termination, interruption, delayed return trip or delays during the return flight of the booked and insured trip.

- Personal assistance

The worldwide 24-hour service of the emergency call centre provides assistance in the event of emergencies that occur during travel, for example loss of means of payment. Compensation is paid, inter alia, for the transport of sick persons and luggage necessitated during the insured trip due to acute illnesses or accidents. In the event of death, the costs of burial abroad or transfer to the home country are reimbursed.

- Best-price guarantee

Compensation will be paid if there is a cheaper competing offer for the planned trip. The competing offer must be exactly the same as the original offer.

- Medical expense insurance

Payment of medical expenses for emergency medical interventions to treat illnesses or accidents suffered by the insured person while travelling abroad. The insurance is intended as supplementary insurance to the statutory social insurance (health insurance, accident insurance, etc.) and to any additional insurance.

When does the insurance contract start and end (contractual term)?

The contract is concluded upon acceptance of your application by HanseMerkur International, i.e. upon delivery of the application confirmation to you, and ends upon completion of the insured trip.

The statutory provisions on an extraordinary right of termination will remain unaffected by the agreements reached.

When does the insurance cover start and end?

The insurance cover for cancellation insurance and the best-price guarantee starts upon delivery of the insurance policy. For all other types of insurance, the insurance cover also starts when the insurance policy is delivered, but at the earliest with the commencement of the insured trip and, for medical expense insurance, first upon crossing the border and going abroad. The term "abroad" does not include the territories of Switzerland and the Principality of Liechtenstein, nor does it include countries in which the insured person has a permanent residence.

The insurance cover for cancellation insurance and the best-price guarantee ends upon commencement of the trip or upon the occurrence of the insured event. In the case of other insurances and insured events, it ends once the agreed duration has elapsed, at the latest, however, at the end of the insured trip.

The insurance cover is extended beyond the agreed time if the scheduled completion of the trip is delayed for reasons for which the insured person is not responsible.

Time and geographical scope of the insurance cover

The insurance cover is valid worldwide for the duration of the insurance, unless otherwise stipulated in the module-specific terms and conditions or in the policy.

What are the main exclusions?

No insurance cover exists in particular if you intentionally cause the insured event. Furthermore, there is no insurance cover for events whose occurrence was readily apparent when the contract was concluded or the travel booking was made.

The restrictions on insurance cover described above are not exhaustive. Further exclusions may arise from the General Conditions of Insurance and the IPA.

What are the obligations of the insured persons?

The following list contains only the most common obligations. Further obligations may arise from the General Conditions of Insurance and the IPA.

Keep the loss or damage as low as possible and avoid doing anything that could lead to unnecessary cost increases. If you are unsure, please contact HanseMerkur International. Report the claims to HanseMerkur International as soon as possible.

The notice of claim sent by HanseMerkur International must be filled in completely and truthfully by you or the insured person and returned immediately to HanseMerkur International. Further supporting documents requested by HanseMerkur International as well as relevant information and evidence must be provided in the same manner.

How much is the premium?

The amount of the premium is defined by the choice of your insurance cover and is indicated in the insurance policy. The premiums mentioned include the current statutory stamp tax.

When is the premium due?

The first or single premium falls due immediately, regardless of whether any right of revocation exists. If any renewal premiums have been agreed in the case of long-term insurance contracts, these fall due on the agreed date. If payment of an annual premium in

instalments has been agreed, the first premium is deemed to be only the first instalment of the first annual premium. If the premium cannot be collected through no fault of the policyholder, payment will still be considered on time if it is made immediately in response to a written request for payment from the insurer. Further details can be found in the General Conditions of Insurance.

Does HanseMerkur International offer advisory services?

No individual advice is provided prior to conclusion of the contract.

How does HanseMerkur International handle data?

The processing of personal data represents an indispensable prerequisite for insurance activity. When processing personal data, HanseMerkur International complies with the Swiss Federal Act of 19 June 1992 on Data Protection (Data Protection Act, FADP; *Bundesgesetz vom 19. Juni 1992 über den Datenschutz, DSG*), the Data Protection Act of the Principality of Liechtenstein (*Datenschutzgesetz, DSG*) and the EU General Data Protection Regulation (GDPR). If necessary, HanseMerkur International will obtain the necessary consent from the insured person for data processing in the claim form.

The personal data processed by HanseMerkur International contain the data relevant for the conclusion of the contract (risk assessment), contract administration after conclusion of the insurance contract (including premium receivables) as well as contract and claims settlement. The categories of data collected include client data (e.g. name, address, date of birth, etc.), and other data to uniquely identify the policyholder), application data (applicant's information on insured risk, answers to application questions), contract data (e.g. duration of contract, insured risks and benefits, etc.), payment collection data (e.g. date and amount of premium receipts, outstanding amounts, reminders), claims data (e.g. notices of claims, clarification reports, invoice documents, etc.).

Primarily, the data of the insured persons from the insurance application and the notice of claim are processed. In the interest of all insured persons, data may also be exchanged with previous insurers, reinsurers and insurers at home and abroad. HanseMerkur International also processes personal data in connection with product optimisation and for its own marketing purposes. Furthermore, personal data may also be passed on to authorities or service providers (e.g. doctors, external experts, lawyers, etc.) by HanseMerkur International or the HanseMerkur Group.

For the purposes stated in the previous sections, personal data may be passed on to companies belonging to the HanseMerkur Group and to third parties, including those abroad.

HanseMerkur International stores data electronically or physically in accordance with the statutory provisions.

Persons whose personal data are processed by HanseMerkur International have the right, in accordance with the FADP, both the Swiss and the Liechtenstein DSG and the GDPR, to demand information as to whether and which of their data are processed by HanseMerkur International; they are also entitled to demand the rectification of incorrect data. Further information on data protection can be found at www.hansemerkur.ch/datenschutz.

Right of revocation

You can revoke your application to conclude the contract or the declaration to accept it in written or electronic form.

The revocation period is 14 days and begins as soon as the policyholder has applied for or accepted the contract. The deadline is considered to have been met if, by the last day of the revocation period, you have notified HanseMerkur International of your revocation or sent your notice of revocation by post.

General Conditions of Insurance

The insurance cover of HanseMerkur International AG (hereinafter referred to as "HanseMerkur International") is defined by the following General Conditions of Insurance.

A General information

1 Policyholder and insured persons

- 1.1 The policyholder is the natural person or legal entity with residence or registered office in Switzerland or Liechtenstein that took out the insurance contract with HanseMerkur International and is specified by name in the insurance policy.
- 1.2 Insofar as not otherwise regulated in the module-specific parts of the terms and conditions, the insured person(s) is/are the person(s) listed in the insurance policy.

2 Duration of the insurance

- 2.1 When does the insurance cover start?
Provided that the policy is delivered, your insurance cover starts
 - for cancellation insurance and the best-price guarantee, when the insurance is taken out;
 - for medical expenses insurance, upon commencement of the trip and crossing the border and going abroad.

9490 Vaduz, Liechtenstein www.hansemerkur.ch
Registration number: FL-0002.599.519-6, Commercial Register LI, Vaduz

- The term “abroad” does not include the territories of Switzerland and the Principality of Liechtenstein, nor does it include countries in which the insured person has a permanent residence.
- for all other types of insurance, upon commencement of the trip. The trip is considered to be commenced once you
 - enter the booked and insured means of transportation; or
 - enter the booked and insured property.

2.2 When does the insurance cover end?

With cancellation insurance and the best-price guarantee, your insurance cover ends

- once you enter the booked and insured means of transportation or property; or
- upon the occurrence of the insured event.

For all other types of insurance, the end of the insurance cover is specified in the insurance policy. However, it ends at the latest upon completion of the trip.

2.3 What happens if your trip lasts longer than originally planned?

If you did not cause this to happen, HanseMerkur International will extend your insurance cover until the completion of your trip.

3 Geographical area of application

The insurance cover is valid worldwide for the duration of the insurance, unless otherwise stipulated in the module-specific terms and conditions or in the policy.

4 Premium due date

4.1 Please refer to the insurance policy for the amount of the premium. The premium is due immediately upon conclusion of the contract. There is no insurance cover before the premium is paid, unless the insurance policy has already been handed over to you.

4.2 If the premium is not paid at the time of expiry, you will be asked in writing to make payment within 14 days, calculated from the dispatch of the reminder, with a warning of the consequences of default at your expense. If the reminder is unsuccessful, the insurer’s obligation to pay benefits will be suspended from the expiry of the reminder period.

4.3 If the premium is collected by the insurer by direct debit from a bank or credit card account, payment is deemed to have been made in good time if the premium can be collected on the date of debiting and the policyholder does not object to a justified collection. If the premium could not be collected through no fault of the policyholder, payment will still be on time if it is made as soon as possible after the insurer has requested payment in writing.

5 Exclusions

5.1 There is no insurance cover for loss or damage caused by

- misuse of alcohol, drugs or medications and its consequences;
- suicide or attempted suicide and its consequences;
- participation in strikes or civil unrest;
- participation in races and drills involving motor vehicles or boats;
- active participation in competitions of sports organisations and related training;
- participation in professional or semi-professional sports events to achieve top speeds.

5.2 Also excluded from the insurance cover are claims caused by

- participation in risky actions in which the insured person knowingly exposes himself or herself to danger;

- grossly negligent or intentional acts or omissions on the part of the insured person;

- the commission or attempted commission of felonies, misdemeanours, contraventions or criminal offences or the wilful breach of statutory provisions by the insured person;

- fraudulent misrepresentation; in addition, the insurer may terminate the contract if the insurance claim is fraudulently substantiated within the meaning of Article 40 of the IPA.

- insured events occurring during an expedition, unless agreed otherwise;

- any activities at altitudes of 4000 metres or above that are not undertaken as a passenger in a commercial aircraft;

- free diving, recreational diving to a depth of under 40 metres, recreational diving without a diving instructor and technical diving.

5.3 There is no insurance cover for events which had already occurred at the time the insurance was taken out or when the trip commenced or for which it was certain at the time the trip commenced that they would have to take place during the scheduled course of the trip. This also applies to pre-contractual illnesses.

5.4 Insofar as not otherwise regulated in the module-specific parts of the terms and conditions, there is no insurance cover for loss or damage arising from epidemics, pandemics, wars, civil wars, warlike events, civil unrest, strikes, ionising radiation within the meaning of the Radiological Protection Act of 22 March 1991 (RPA; *Strahlenschutzgesetz vom 22. März 1991, StSG*) as amended, radioactive radiation, confiscations, seizures or other interventions by the authorities. Furthermore, there is no insurance cover for claims arising from violence at a public gathering or demonstration if you or other insured persons actively participate. HanseMerkur International will not indemnify for events on trips that are booked, commenced or not aborted immediately despite travel warnings from the Swiss Federal Department of Foreign Affairs (FDFA).

5.5 No insurance cover will exist if economic, commercial or financial sanctions or embargoes imposed by Switzerland or the Principality of Liechtenstein and applicable to the contracting parties conflict with the insurance cover. This will also apply to economic, trade or financial sanctions or embargoes imposed by the United Nations (UN), the European Union (EU) or the United States of America (USA), unless these conflict with Swiss statutory provisions.

5.6 Insofar as HanseMerkur International does not expressly provide cover under the module-specific parts of the terms and conditions, it will not indemnify for loss or damage directly or indirectly attributable to natural catastrophes, seismic phenomena or weather influences.

5.7 There is no compensation for loss of enjoyment.

5.8 There is no insurance cover if the purpose of the trip is medical treatment or if medical treatment or medically prescribed measures were the reason for commencing the trip.

5.9 Costs for medical reports, certificates and nursing staff will not be reimbursed.

5.10 Costs for meals, lost time at work and other financial losses will not be reimbursed.

5.11 Activities in connection with an insured event are not insured, for example costs for the replacement of the insured items or police purposes.

5.12 No insurance cover is provided if you, or a person at risk, is unable, or is denied the right, to depart or enter a country, continue a trip or transit via a country due to regional or nationwide quarantine measures or contact restrictions or curfews imposed by the authorities.

5.13 We do not provide cover for costs incurred due to entry requirements that apply immediately after you enter your destination country as a result of quarantine measures imposed by the authorities. In addition, we do not cover expenses for

travel services that can no longer be used due to these quarantine measures imposed by the authorities.

6 Obligations

HanseMerkur International will not be able to provide its benefits without your cooperation and that of the insured person. Please observe the following points so that your insurance cover is not compromised.

- 6.1 Keep the loss or damage as low as possible and avoid doing anything that could lead to unnecessary cost increases. If you are unsure, please contact HanseMerkur International.
- 6.2 You or the insured person must report the loss or damage to HanseMerkur International as soon as possible.
- 6.3 In the event of illness, accident, pregnancy, intolerance to vaccinations, or fracture or loosening of implants, HanseMerkur International requires appropriate, meaningful medical certificates with diagnoses (no self-diagnoses or opinions of experts or doctors, etc., who are directly favoured or related by blood or marriage to the insured person) and, in the event of cancellation of travel, proof of submission of the notification of illness to the social insurance. These documents must be sent to HanseMerkur International within 14 days of receipt. You or the insured person must complete the notice of claim sent by HanseMerkur International truthfully and return it within 14 days of receipt. Additional supporting documents, relevant information and evidence requested by HanseMerkur International must be provided in the same manner and also within 14 days of the request. In the event of claims due to injury or illness, the insured person must ensure that the treating doctors are released from their duty of confidentiality vis-à-vis HanseMerkur International. If HanseMerkur International deems it necessary, it may have any evidence verified by expert opinions of independent third parties or carry out other investigations (including an examination by a medical practitioner nominated by it).

7 Consequences of a breach of obligation

If you or the insured person culpably violate one of the aforementioned obligations, HanseMerkur International may refuse or reduce the benefit in accordance with the IPA. If you prove that the obligation was breached through no fault of your own, the insurance cover remains in effect. The insurance cover also remains in effect if you prove that neither the determination nor the scope of the benefit was attributable to the breach of the obligation. This does not apply if the obligation was breached fraudulently.

8 Multiple insurance and claims against third parties

- 8.1 In the case of (voluntary or compulsory) multiple insurance, HanseMerkur International provides its services on a subsidiary basis, subject to an identical clause in the other insurance contract. In such a case, the statutory provisions of double insurance apply.
- 8.2 If an insured person is entitled under another (voluntary or compulsory) insurance contract, with the exception of benefits under travel accident insurance, the coverage provided by HanseMerkur International is limited to that part of the claim that exceeds the portion covered under the other insurance contract. The costs will only be reimbursed once in total.
- 8.3 If HanseMerkur International provides services despite the existence of a subsidiarity provision, these will be deemed to be an advance payment, and the insured person or beneficiary shall assign his or her claims against the third party (voluntary or compulsory insurance) to HanseMerkur International to this extent.
- 8.4 If the insured person or person entitled to claim compensation has been indemnified by a liable third party or its insurer, no compensation will be payable under this contract. If HanseMerkur International has been held liable instead of the liable party, the insured person or person entitled to claim compensation shall assign his or her liability claims to

HanseMerkur International up to the amount of the compensation received from HanseMerkur International.

9 Further definitions

This includes, in particular, research or discovery trips carried out by research institutes, scientific organisations, universities, etc., and associated with increased risk.

10 Payment of insurance benefits

- 10.1 As soon as proof of insurance and premium payment has been provided and HanseMerkur International has established its payment obligation and the amount of the compensation, it will pay the compensation within four weeks. If HanseMerkur International has established its obligation to pay, but cannot establish the amount of the compensation within one month of receipt of the notice of claim, you are entitled to an appropriate advance on the compensation. If official investigations or criminal proceedings have been initiated against you or one of the insured persons in connection with the insured event, HanseMerkur International may postpone the settlement of the claim until such proceedings have been finally concluded without the possibility of appeal.
- 10.2 If compensation for the insured event can be claimed under another insurance contract, the other contract will take precedence over this contract.
- 10.3 Costs incurred in foreign currency will be converted into Swiss francs at the exchange rate of the day on which the receipts are received by HanseMerkur International. The daily exchange rate for traded currencies is the official exchange rate at the time of the transaction, unless the insured person has demonstrably acquired the foreign currency required to pay the invoices at an unfavourable rate.

11 Limitation period and forfeiture

Claims arising from the insurance contract become time-barred five years after occurrence of the fact giving rise to the benefit obligation.

If HanseMerkur International rejects the compensation claim, the entitled person must assert the claim in court within two years of the occurrence of the event, or else will lose all rights to the claim (forfeiture).
