Buyer: Markus Hertig Payment: Cash Invoice required		

To travel on board of Regional Trains, travelers will have to perform a Check-In online. This can simply be done thanks to the new Self-Check-In.

Please note that the link to Check-In can be found only in Trenitalia original confirmation E-Mail (you will receive these separately together with your travel documents).

To activate the ticket, check-in must be done before the scheduled departure time of the train.

Tip: Set a reminder for ticket activation in your calendar, about 2 to 3 days before departure.

To Check-In, travelers will have access to a dedicated page, via the link in the confirmation E-Mail where they should select "Check-In".

Please note that the Regional Digital Ticket is nominative and personal and cannot be transferred to other passengers.

Instruction for the Activation of Regional Train Tickets:

1. Open the confirmation E-Mail and click on “Check-In & Barcode”

How to access the Checked-In train ticket:

After the Check-In is completed, no new train tickets will be issued but simply the QR-Code will update itself. The train ticket with “NOT VALID FOR TRAVEL” remains invalid. You will be asked on the train to show your checked-in train ticket. Following an example.

To access your checked-in train tickets, you have three different options:

Option 1: Print

After having completed the Check-In, if you have the possibility, you can print out on paper the checked-in ticket with the updated QR-Code.

Option 2: Mobile Screenshot

After having completed the Check-In, you can take a screenshot of the checked-in ticket with your mobile phone.

Option 3: Confirmation E-Mail

After having completed the Check-In, you can re-open the confirmation E-Mail and click once again on “Check-In & Barcode”, where the checked-in ticket will be available.
